

UCSC INTRO NOTES

There will be six assignments, one at the end of each class. You will have one week to do the assignment. Each is due by the beginning of the next class. I do not accept late homework because I will go over the homework at the beginning of the next class.

While there are 6 assignments, each worth 20 points, I will generate your grade based the best 5. That means that you can skip one assignment if you want to, or do poorly on one assignment, and it will not affect your grade. Grading is very simple, add up your five best assignments, translate that into a letter grade.

All of my notes and sample file are available to you on the class site. The file are time locked. Each set of notes is available on the day of the class in the morning. Each set of sample files is available at the start of the class. Each homework assignment is available at the beginning of the class.

You turn in each homework assignment on the class site. I will grade them on the site. I often grade quickly, so don't be surprised to see me grade your homework soon after you turn it in.

There will be a 10 minute break in the middle of each class.
